Old Courthouse To Be Restored

W. M. ABBITT

Fourth District Rep, Watkins M Abbitt says Congress has appropriated $172,500 for reconstructing the old Appomattox County Courthouse.

The funds were included in the appropriations bill for the Department of the Interior passed by the House this week and agreed to by the Senate conferees. The funds were originally cut from the bill by the House Appropriations Committee but were restored on a personal plea by Abbitt.

Abbitt says construction should begin next spring on rebuilding the old courthouse, leveled by fire in 1892, and the project should be ready by 1964 in plenty of time for ceremonies planned the following year on the 100th anniversary of the end of the War Between The States on April 9, 1865.

Congressman Abbitt said the House also approved funds for reconstruction of rail fences in the park and reconstruction of the village road.

The macadamized road surface presently in use will be removed and a gravel surface such as was in use during the War will be put down. Rail fences contemporary to the war era also will be erected throughout the park grounds, Abbitt said.

Support Rate On Tobacco

According to C. D. Lewis, Chairman of the Appomattox County Agricultural Stabilization and Conservation Committee, the average support rate for this crop of flue-cured tobacco is slightly higher than last year, the average support rate (peg price) for this crop is 56.1 cents per pound. This compares with 1961 crop average of 55.5 cents per pound.

Mr. Lewis pointed out that as in past years, growers will offer their tobacco at action markets in the usual manner and price support will be made available to eligible producer through the flue-cured Tobacco Cooperative Stabilization Corporation. An eligible producer is one for whom a "With-Quota" or a "Limited Support - Within-Quota" marketing card has been issued under applicable marketing quota regulations.

The loans will be made on the basis of Official Standard Grades at a specified rate for each grade, with a 6-cent-per-pound differential between "tied" and "untied" tobacco. As previously announced price support on untied tobacco will be available on limited grades during the first five sales days on markets in South Carolina, North Carolina and Virginia, in addition to marketings of all tobacco in the Georgia-Florida area. Loan rates by grades for "full-support" varieties of "tied" tobacco range from $82 per 100 pounds down to $24 per 100 pounds. Last year's range was from $82 to $22 per 100 pounds.

Copies of the loan schedule may be obtained at the local ASCS office at Appomattox.
